How to Connect to ISE with Android

To access the new faculty and staff wireless network, follow the listed instructions below.

1. Select 'Settings' and then 'Wireless & networks' from the list (see *Figure 1*).

3. Turn on Wi-Fi if it isn't already enabled. Choose CTC_ISE from the list of networks(see *Figure 3*).

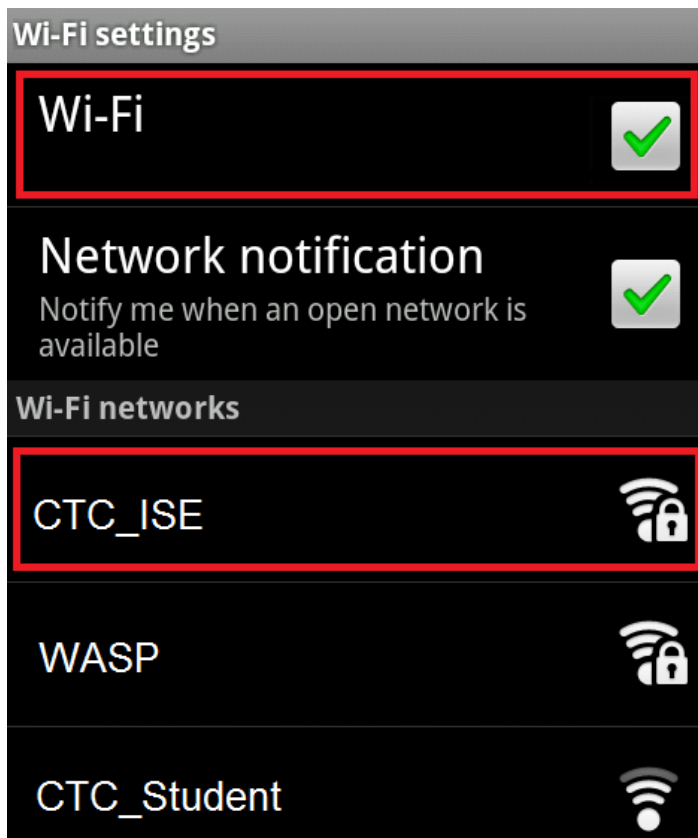

Figure 3

4. A box will appear with information about the network. Scroll down to where you need to insert an 'Identity' and your password.
5. Enter your 'Identity' into the text box. This will be your Active Directory name (first name.last name@ctcd.edu or first initial.last name@ctcd.edu).
6. Then enter your password. Your password to access the network is the same as your Windows (Active Directory) password.
